

Share Your Single Ventricle Story To Help Support FON's Transformative Work

FON understands that our work is personal. The improvements we make as a multi-center learning health network in the care for individuals with single ventricle circulation means real changes in outcomes and quality of life for real people in real time. But FON needs the help of real community members like you to support this important work.

You can now share your single ventricle story or the story of a loved one to help increase visibility and raise support for FON through building and sharing your own online Giving Hope fundraising web page!

A Giving Hope fundraising web page, facilitated through Cincinnati Children's Hospital, is a quick and easy way to share a milestone, honor a loved one, or bring together a support system that's helped you and/or a loved one succeed all in the spirit of supporting FON's work!

Complete the six steps below to build your own personalized FON fundraising web page that you can share with your family, friends, and community!

Please note that all funds raised go directly to FON.

Welcome to Miles4Miles

In honor of Miles' "heart-anniversary", we are raising money for The Fontan Outcomes Network - a lifespan learning network made up of a community of
